GABRIEL WILD

11318 Chimney Rock Trail| Frisco, TX | 972-505-5018 | gabew2024@tamu.edu | www.linkedin.com/in/gabriel-wild

EDUCATION

Master of Science in Computer Science
Texas A&M University, College Station, TX May 2026

- 4.0 GPA

Course Work: Data Mining, Information Storage and Retrieval, Data Analytics in Cybersecurity, Machine Learning, Engineer to CEO

Bachelor of Science in Computer Science
Texas A&M University, College Station, TX May 2025

- Minors: Math, Cybersecurity
- Summa Cum Laude
- 4.0 GPA

Course Work: Data Structures and Algorithms, Analysis of Algorithms, Software Engineering, Cloud Computing, AI, Senior Design

Distinguished High School Diploma
Wakeland High School, Frisco, TX May 2021

- Graduated Magna Cum Laude
- STEM Endorsement
- 5.21 GPA

SKILLS

- Proficient in C++, Python, Go, Java, Protobuf IDL, Scheme, C, C#, SQL, Swift
- Data Structures and Algorithms, Software Engineering
- Artificial Intelligence, Machine Learning, Data Science, Data Mining, Cybersecurity
- Leadership, Collaboration, Problem Solving, Communication skills

EXPERIENCE

SRE Intern, ***Google LLC*** May 2024 – August 2024

- Worked in an SRE/SWE team to complete a dev-based project to update metadata in a service from a command line interface
- Designed and scoped out multiple solutions, creating design documents, diagrams, and audits to determine the best implementation approaches
- Refactored python server architecture and server handler hierarchy to seamlessly integrate the desired functionality.
- Improved upon the first solution by building a new utility consisting of a Golang command line interface, Python server architecture, and Protobuf RPC messages connecting the utility.
- The utility acts as a last line of defense for site reliability engineers to reliably, safely, and efficiently fix issues in production

SDE Intern, ***Cox Automotive Inc.*** May 2023 – August 2023

- Worked in an Agile development as part of a scrum team, delivering a tool which leverages AWS technologies like S3 and Lambda to map performance managers in an Oracle database
- Completed a project on a team consisting solely of interns on a solution which analyzes consumer compliance with the ProfitTime GPS product and the corresponding profit.
- Develop programming skills by learning new technologies and design patterns like paired programming, Agile scrum, AWS, Oracle
- Team Finalist in hackathon for an NLP solution which categorized descriptions into different car parts within .002% accuracy of the current solution.

IT Intern, ***CoServ Electric*** June 2022 – August 2022

- Collaborated with a team to solve internal hardware and software problems
- Created PowerShell scripts to efficiently manage and export data in the Active Directory

LEADERSHIP / ORGANIZATIONS

Zachry Leadership Program, *Texas A&M University* October 2022 – May 2025

- 1 of 32 members selected to the 8th Cohort
- Develop leadership skills and the ability to positively influence people in the workplace
- Focus on expanding perspective and gaining an appreciation for the power of collaboration and the diversity of thought, while also learning the duty of leaders to serve their teams and communities.

SHPE (*Society of Hispanic Professional Engineers*), *Texas A&M University* August 2022 – May 2025

- Increase awareness of various opportunities for Hispanic Engineers and empowers us to impact the world.

Aggie Competitive Programming Club, *Texas A&M University* August 2021 – May 2025

- Weekly meetings learning algorithms for complex discrete structures.
- Semesterly competitive coding competitions (solo and team) solving problems in a memory, and time efficient manner
- Placed 12th in annual Fall club competition out of 100

PROJECTS

Aggie Wine Glass, *Texas A&M University* January 2025 – May 2025

- Developed an iOS application that recommends by-the-glass wines at local restaurants using a custom preference model, collaborative filtering, and RAG-enhanced user feedback.

Formula SAE x ADSC, *Texas A&M University* August 2023 – May 2024

- Engineered a real-time telemetry testing rig to stream sensor data from a mini-Formula-E vehicle to a Raspberry Pi over the CAN bus, enabling live performance monitoring and diagnostics for drivers and engineers during track runs.

HONORS AND AWARDS

- Certificate of Holistic Leadership, Texas A&M University, 2025
- Dean's Honor Roll
- National Hispanic Scholar
- Professionalism and Soft Skills (PASS) Certified, Cox Enterprises, 2023
